

KLOVE Radio is our primary station that serves our family of five. Our three children are growing up to the positive and encouraging music and messages that help to support strong charecter. If KLOVE was to be replaced by an LPFM our community would loose a vital communications link to positive family values. This would be tragic. In our curent media blitz society, KLOVE is one of the few safe places that our entire family can listen and be encouraged by the music and program.
